REPLIT PROOF OF USE

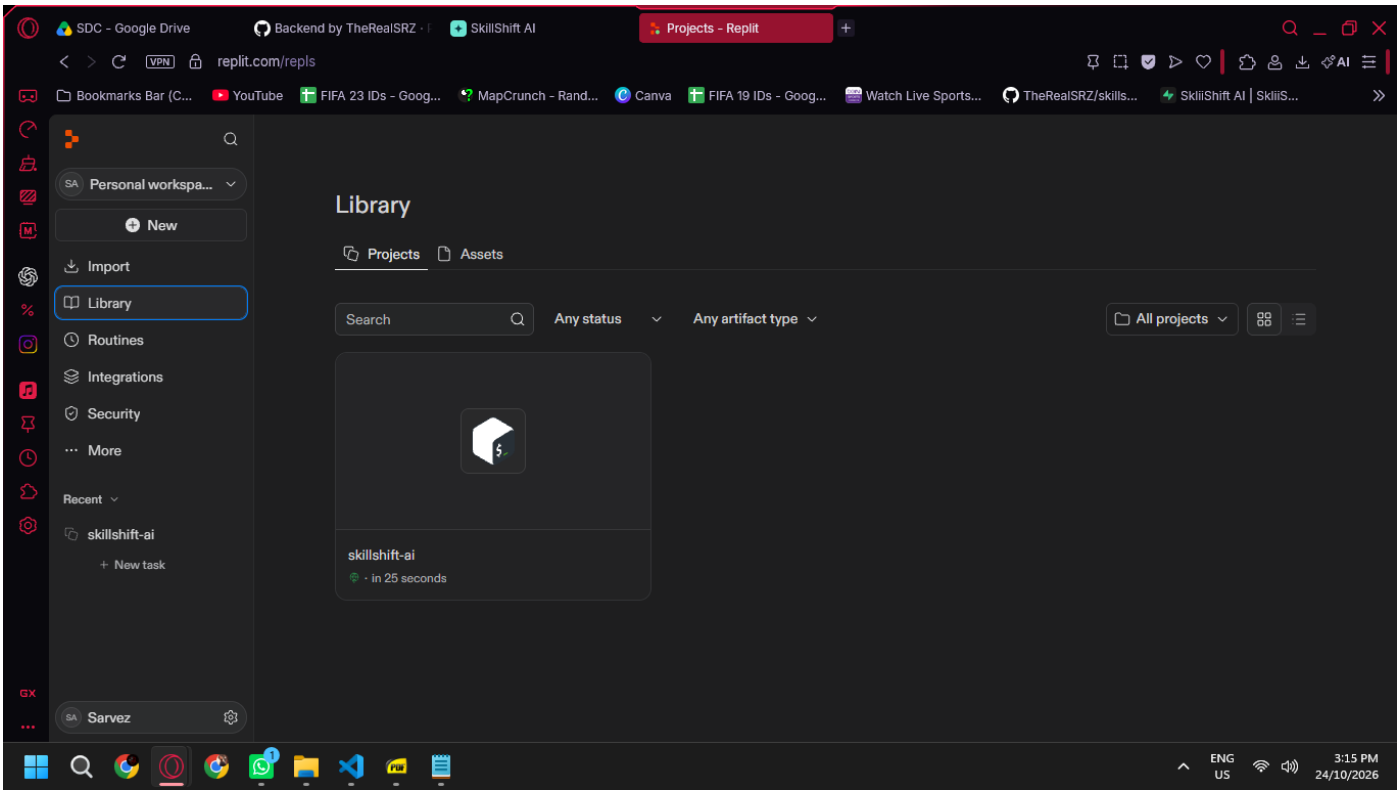

Figure 1: Replit project library displaying the SkillShift AI project within the team's development workspace, demonstrating project creation and management on the Replit platform.

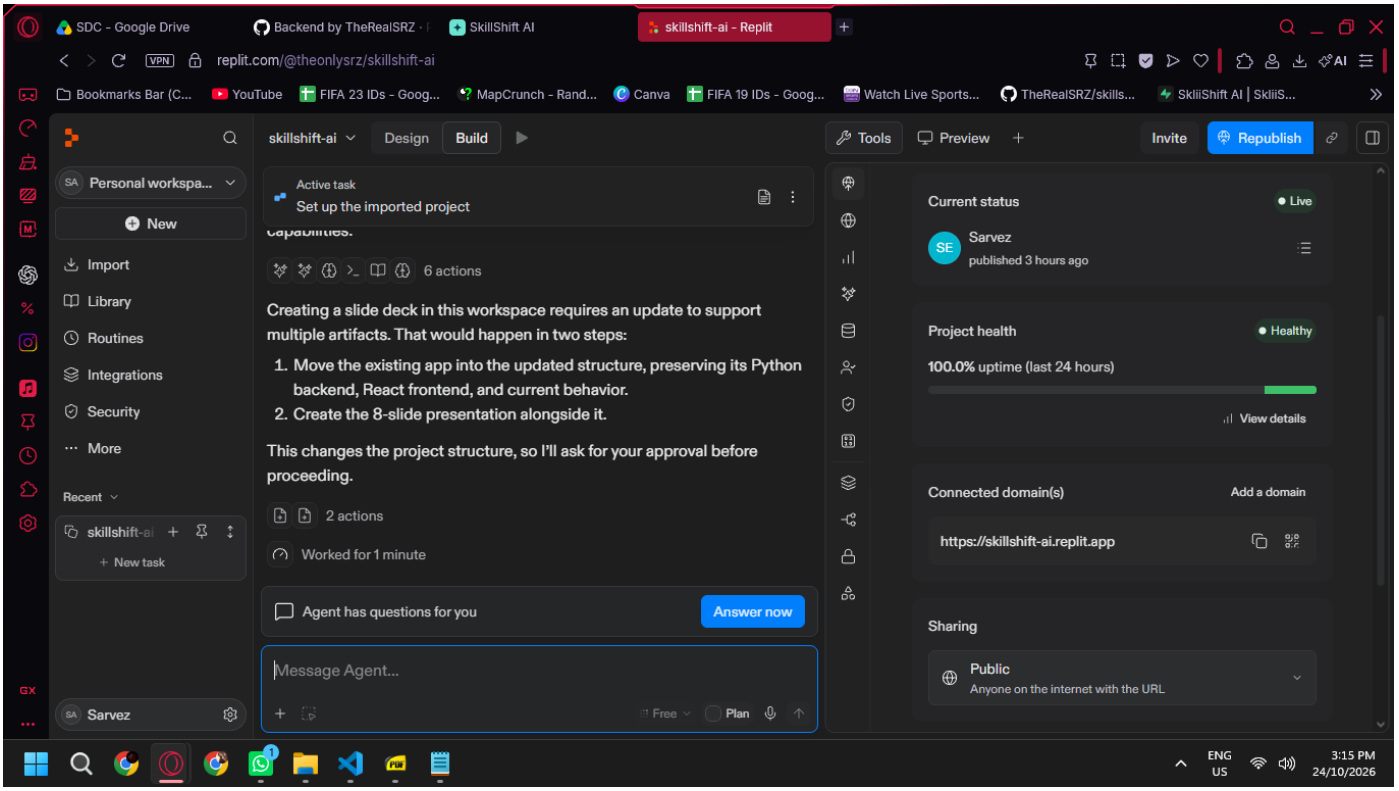

Figure 2: Replit deployment dashboard showing the SkillShift AI application with a Live deployment status, Healthy project status, 100% reported uptime over the preceding 24 hours, and the publicly accessible deployment URL (https://skillshift-ai.replit.app/).

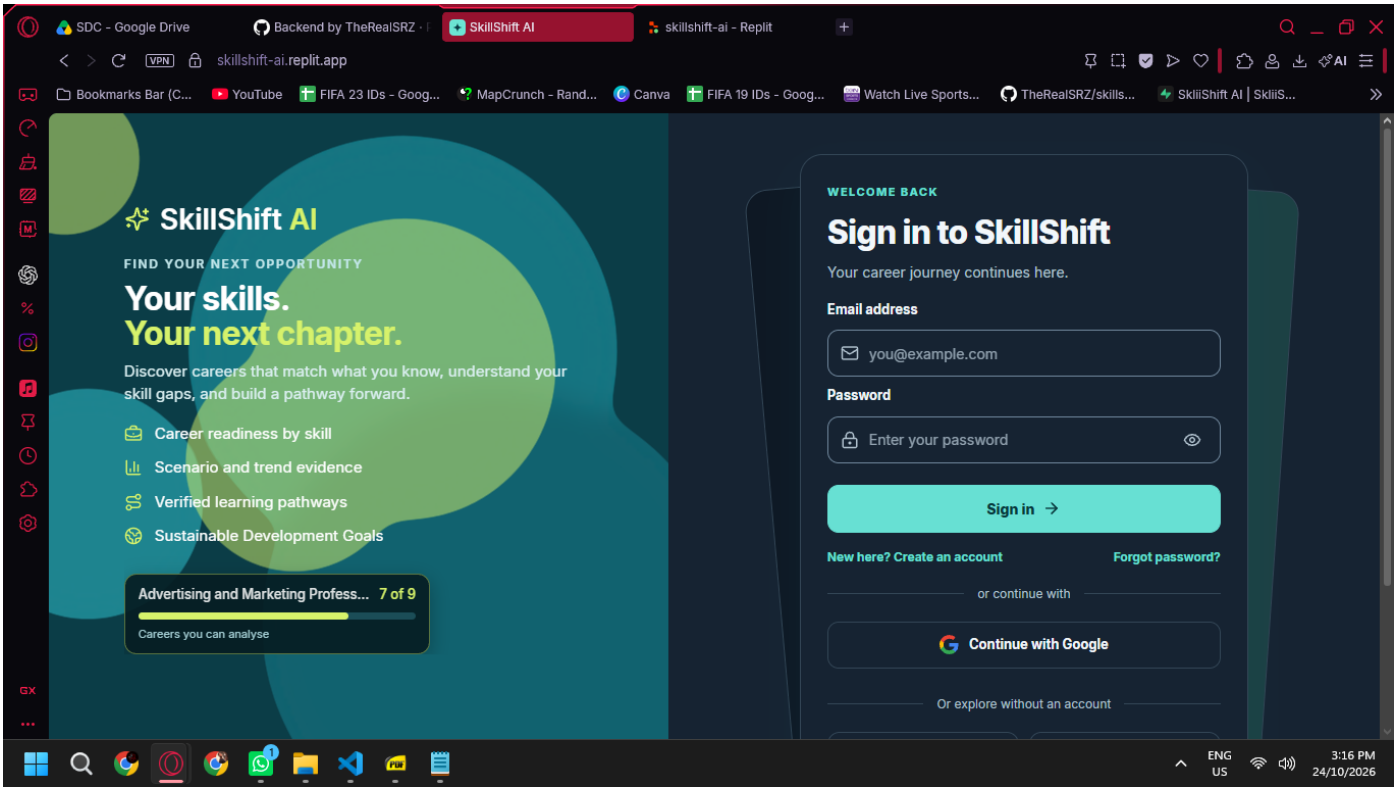

Figure 3: Successfully published SkillShift AI web application hosted on Replit, displaying the user authentication interface with email/password login, Google sign-in option, and career-readiness platform introduction.

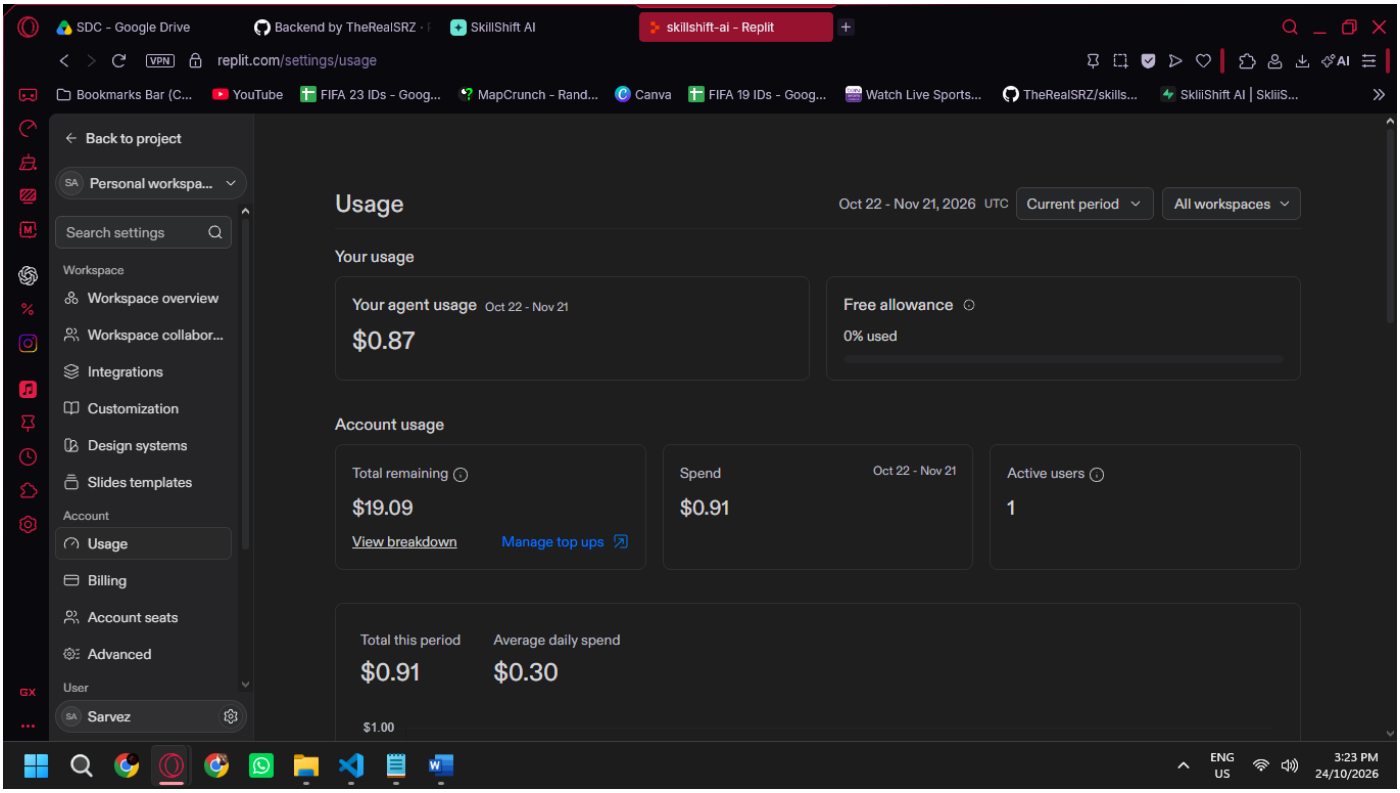

Figure 4: Replit account usage dashboard for the billing period of 22 October to 21 November 2026, displaying recorded agent usage of USD 0.87, total account expenditure of USD 0.91, and one active user, providing evidence of platform resource consumption.

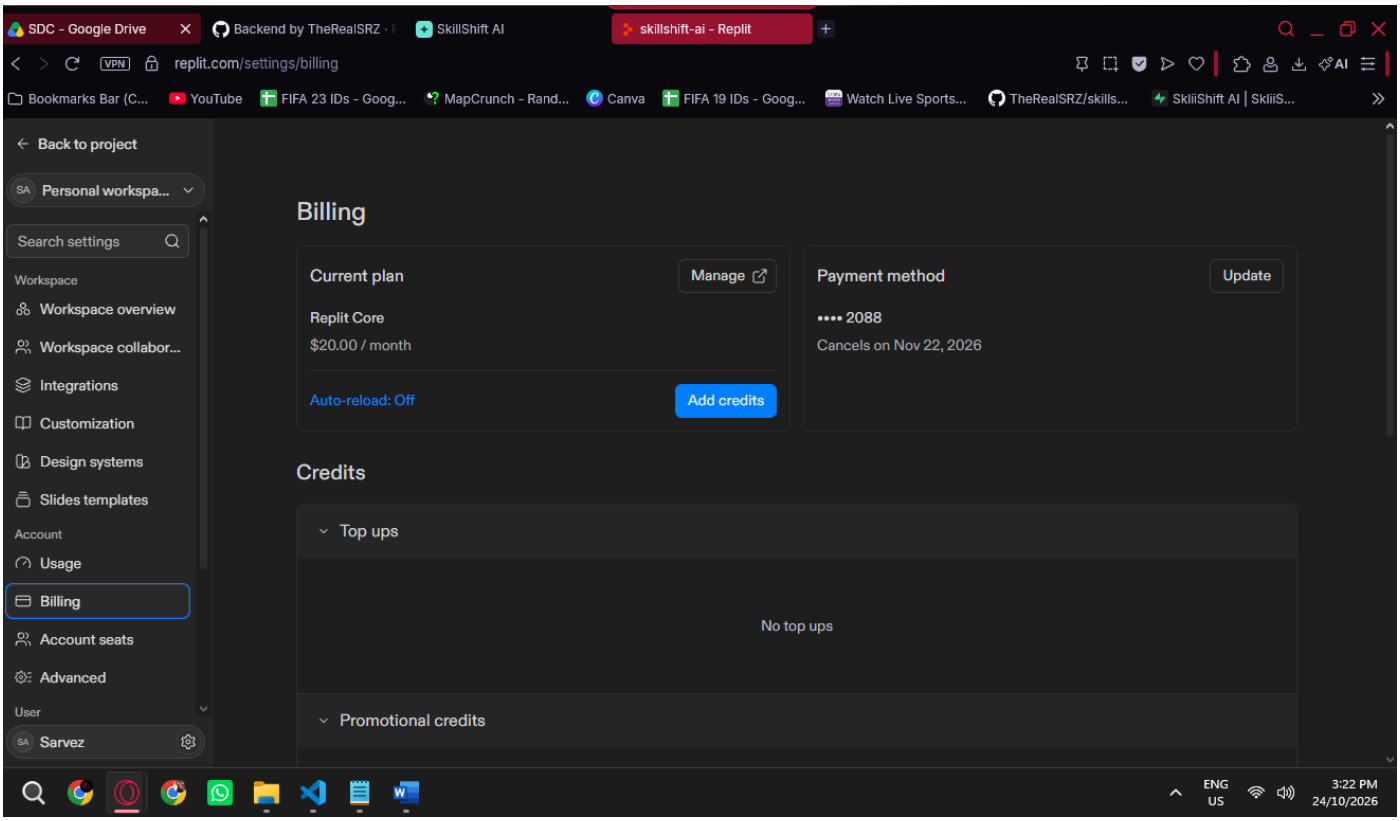

Figure 5: Replit billing dashboard displaying the Replit Core subscription at USD 20.00 per month and account credit management settings, demonstrating access to the paid Replit development and deployment environment.
